

# Bird-X Bird Proof Gel

**Keep birds from roosting and landing on any surface with our bird proof gel.**

Bird-X bird proof gel is a sticky non-toxic repellent gel which is ideal for ledges, window sills, gutters, beams and more.

## How & Why it Works

The Bird-X bird proof gel is a sticky, non-toxic, low profile gel that prevents pest birds from landing and roosting on their most popular spots. Birds don't like the sticky feeling under their feet and learn to avoid the area in the future. Bird-x bird gel is easy to apply using a standard caulking gun. It is ideal for any surface

## Specifications

Bird-X bird proof gel is an effective bird deterrent for all birds for many reasons:

- Can be used indoors or outdoors and in any weather.
- Non-toxic formula makes a surface sticky and uncomfortable to birds.
- Discreet and low profile bird deterrent.
- Comes as handy 283gms tube (apply with a standard caulking gun).
- Easy to apply.
- Effective for up to a year.
- One cartridge treats approximately 10feet (3.5m).

## Applications

**Pests:** All pest birds, e.g. Pigeons, Sparrows, Starlings, Gulls and more.

**Uses:** Roofs, ledges, signs, windowsills, gutters, beams, rafters, railings, air conditioners, light poles, cornices, ornamental copings, any surface where birds roost or perch.
