

DRINKBETTER[®] BOWL

PREVENTS DOGS FROM DRINKING TOO FAST.

- Helps dogs avoid soaking their ears and muzzle.
- Minimizes the mess left by a sloppy drinker.
- Ensures your dog's comfort with a smooth and ergonomic design.
- Sturdy non-skid design, constructed of K-Resin SBC - a high-quality food-grade polymer.
- Capacity: approximately 16oz or 500ml.

The Drink Better[®] pet bowl encourages dogs to drink at a slower, healthier rate, and make less mess while they're at it. Besides making a wet mess, dogs that drink too fast can experience digestive problems such as indigestion and vomiting, and light-haired dogs may experience staining of the muzzle (from chlorinated water).

The Drink Better bowl uses a floating obstacle to control the flow of water, encouraging dogs to drink slower and take only as much as they need, without soaking their ears and muzzles or slopping water around the feeding area. Along with the [EatBetter[™]](#) bowl, the Drink Better bowl encourages dogs to adopt a slower, healthier pace at mealtimes.

Important note

Supervise your dog's use of the Drink Better[®] bowl until you are confident it can be used effectively without supervision.

Clean well after each use

After each use, rinse the bowl thoroughly with water and a mild soap solution, if necessary. Occasionally, give it a good scrub with a soft bristle brush. (The bowl is also dishwasher safe.)

One size fits all breeds

You can set the flow of water by adjusting the depth of the floater. For small to medium size-sized dogs, keep the floater near the surface to offer less water; for larger breeds, add more water in the floater so it sits lower and dispenses more water.

Recyclable

International Patent Pending

Keep Away From Direct Sunlight

Dishwasher Safe Top Rack Only

Not To Be Washed With Water Above 60°C

Non-Microwavable

Food Grade

SPECIFICATIONS

- **Attractive design and colours:** Each bowl is ergonomically designed in bright vibrant hues with rounded edges so that it does not cause any discomfort during drinking.
- **Non-slip base:** Spare your dog the indignity of having his bowl move from end to end when he drinks. With its weight and three-point non-slip pad, your dog can drink comfortably.
- **Extremely durable:** Made from high-grade K-Resin — a high quality food-grade plastic — the bowls are chew resistant and can survive all manner of drops and knocks.
